

## Dear Target Bavaria Rallye fans !

It's unbelievable how quickly time moves, in less than two months our participants should have been lined up at the starting line of the historic GP Preluk street circuit! The Red Bull Ring and most special stages are also logged in and are waiting to be mastered by the classic cars of the TBR.

Though besides these successful preparations for the first Target Bavaria Rally, unfortunately some issues did not work out the way we had hoped. For example, we did not get some of the special stages in Slovenia, Austria and Germany approved as planned due to legal and environmental restrictions. It falls victim to bureaucracy when we were allowed to take the test uphill in Slovenia to the border, but the passage downhill in Austria was not approved. We also had to accept lasting setbacks in terms of our tremendous motorsport team, due to the absence of one of the FIA key players who fell severely ill.

The Target Bavaria Rally 2024 should be the 1st edition of a series of events that offers a first-class rally experience. Our attitude is and remains to give 100% commitment to this goal, we are not used to anything else and we do not want to offer anything else. Thus doing something half-hearted will never be an option; However, since the headwind does not allow 100% for 2024, we will postpone the TBR by 1 year.

Perhaps only a year of planning for this big event was too optimistic, but an earlier start of planning was impossible due to the pandemic. Maybe it was too ambitious to plan the first edition through 4 countries, all of which with different motorsport rules.

We have learned a lot from the bureaucratic sensitivities in all 4 countries and this will give us the opportunity to reposition the Target Bavaria Rallye in 2025. The motorsport passion in Croatia is so immense, that we might initially limit the Target Bavaria Rally geographically to the countries, in which we are more than welcome. The echos we received from interested participants of the Target Bavaria Rally gives us the courage and confidence to continue; obviously, many passionate people are literally waiting for what we have to offer. But we also heard that the date should be set so that it does not collide with other events in the classic car scene.

Last but not least:

Thank you to everyone who supported us so sustainably for this project, especially the friends I had the honor of

battling against on the circuits, the Drivers Club of MOTORWORLD Munich and many of its members, who gave us several opportunities to promote the Target Bavaria Rally and will continue in doing so. A thank you as well to the active members of our organization team, who have turned Target Bavaria Rallye into a household name - almost a brand - within a year! We would also like to thank the supporters of ADAC Südbayern, the various regional automobile clubs and also the national Motorsport federation. They all offered to help in organising the event right from the start.

These reactions provide the drive and motivation to continue and explore a date for 2025. THANK YOU – see you.

**HAPPY EASTER**

**We shall continue to inform you with the development of the preparations for 2025**

**Stay with us !**
