

Royal escort

His Royal Highness, **Leopold Prince of Bavaria**, will accompany the TBR participants from Slovenia or from the Red Bull Ring to Munich.

From the House of Wittelsbach (the House of the Bavarian Kings), the great-great-grandson of King Ludwig I took a slightly different path and was one of the top racing drivers in Germany.

“Poldi” took part in his first mountain races with his private Opel Kadett and received his first works contract with British Leyland.

In 1969 he switched to circuit racing and became runner-up in the German circuit championship in an Alfa. In 1972 he won the ice championship in North America in a Porsche 911.

Since 1986 he exclusively run on BMW race cars.

He was a member of the “Trio infernale” with his friends Hans-Joachim Stuck and Dieter Quester, which was characterized by many funny pranks in the paddocks.

So he is happy to be part of the TBR as BMW's international brand ambassador for BMW Classic.

Classic

Living on Lake Starnberg, he probably won't miss the chance to ride the last SS ("Holy Mountain" from Andechs - almost on his doorstep).

In any case, we are happy about his "escort" and "royal support".

The active organiser also participated in the **Rally Isla Mallorca**, which has just taken place on the island for the twentieth time. The reason, of course, was to attract interested drivers there for the **TARGET BAVARIA RALLYE**. At this rally in Mallorca the categories are similar: in **Competition** and in **Regularity (slow and fast)**.

So these participants already know their way around and are “suitable” for the TBR.

<https://www.rallyislamallorca.com>

The friendly and very committed organiser Toni Dezcallar was so enthusiastic about the TBR and its concept that he immediately promised Joachim von Finkenstein to promote the TBR during his Mallorca Rally. **Thank you very much, Toni, for this extremely collegial support.**

Flyers and event brochures could be distributed and in addition JvF could introduce briefly the TBR on the evening of the awards ceremony.

Right away, some of the participants asked for details and even applied.

In any case, there were also a lot of emotional parts of the rally route in **Mallorca:**

The suspense during the start, the beautiful, impressive landscapes, the very well-selected routes and the demanding special stages, the sporting spirit, the stylish organisation in Puerto Portals and on all the other places, the atmosphere, to meet like-minded people with good conversations, expanding your network, and lots of fun in motorsport the way you like it; in competition and regularity, in a demanding way.

These are exactly the same characteristics that will also be present during the TARGET BAVARIA RALLYE end of May.

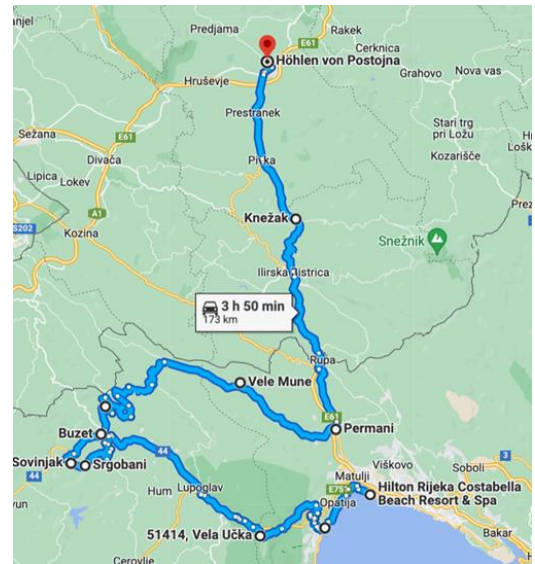

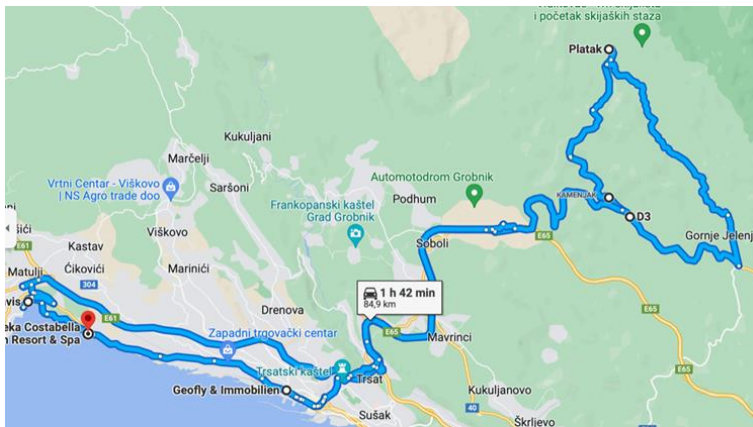

Hurry up to be part of it ...
